MJ-2090

Type: Fixed Mount Scanner

Decode: 1D

Source: CCD

Interface: USB/RS232

Wireless: N/A

Scan Mode: Auto-sense Serial commands

- **Ease of integration**

Designed for OEM applications, this high-performance fixed mount barcode scanner can easily be integrated into various devices such as kiosks, ticketing machines, (reverse) vending machines, mobile ticket validators and many more.

- **Advanced Technology**

Equipped with High-Performance decoder chip, The scanner supports all global standard 1D barcode symbologies. Its reading performance exceeds global standards. By using the accessories provided, the user can ideally set up the scanner to its user environment.

- **Application Scenarios**

Self-service cabinets used in e-commerce, express delivery services and smart homes; ATMs; kiosks; queue machines; lottery machines; certificate makers

Parameter

Type	Fixed Mount Scanner
Light Source	632nm(Visible Red Light)
Scan Rate	300 scans/second
Reading preciseness	≥4mil/0.1mm@PCS90%
Interface	USB
Reading Distance	40-500mm(100%UPC/EAN)
Decode	EAN-8/13,UPC-A/E,code 39/93/128,EAN128,Codabar, industrial 2 of 5,interleave 2 of 5,MSI etc..
Print Contrast	≥30%
Scanning angle	Pitch:±60°/ Roll:±30°/ Skew:±60°
error rate	1/3million
Power voltage	5V
Safety performance	CE & Rohs Accord with national level 2laser safety standards
Dimension	70mm*50mm*22mm
Weight	58g (without cable)
